| | Amy Glicksman (Hospital for Sick Children, Yr 2) | Short cases |

Participating Fellows Contact information

| Name | Email | Hospital |
|-------------------------------|--|------------------------|
| Dr. Connie Yang – coordinator | Connie.yang@cw.bc.ca | BC Children’s Hospital |
| Daisy Yin – administrator | Daisy.yin@cw.bc.ca | BC Children’s Hospital |

| Name | Email | Hospital | Year |
|--------------------------|--|------------------------------|------|
| Amy Glicksman | Amy.glicksman@sickkids.ca | Hospital for Sick Children | 2 |
| Charmaine Crooks-Edwards | charmaine.crooks-edwards@sickkids.ca | Hospital for Sick Children | 1 |
| Frederic Proulx | frederic.proulx.1@ulaval.ca | St. Justine Hospital | 2 |
| Heidi Schaballie | heidi.schaballie@gmail.com | Hospital for Sick Children | 1 |
| Hussain Mohsin | Hussain.mohsin@ahs.ca | Alberta Children's Hospital | 2 |
| Jody Platt | jody.platt@ahs.ca | Alberta Children's Hospital | 1 |
| Juliana Giraldo Salazar | juliana.salazar@sickkids.ca | Hospital for Sick Children | 1 |
| Karen Keown | Karen.keown@cw.bc.ca | BC Children's Hospital | 2 |
| Lucy Perrem | lucy.perrem@sickkids.ca | Hospital for Sick Children | 2 |
| Mandeep Walia | mandeep.walia@cw.bc.ca | BC Children's Hospital | 1 |
| Marie-Christine Hendriks | marie-christine.hendriks.1@ulaval.ca | St. Justine Hospital | 1 |
| Michael Derynck | michael.derynck@ahs.ca | Alberta Children's Hospital | 1 |
| Nicholas Avdimiretz | Nicholas.avdimiretz@sickkids.ca | Hospital for Sick Children | 2 |
| Ronly Har-Even | ronlyhareven@gmail.com | Stollery Children's Hospital | 1 |
| Wallace Wee | wallace.wee@sickkids.ca | Hospital for Sick Children | 1 |

Posting Presentations online

www.crosscanadarounds.ca

We would like to post all presentations from Cross Canada Rounds. As requested by previous years of fellows, this helps with studying for the exam. It also helps to keep an archive of what has been presented in the past so fellows don't present similar cases.

One of the barriers to posting presentations in the past was the amount of reformatting that needed to be done. To remedy this, we are simply posting the PDF version of the powerpoint slides used in the presentation. When you are creating the presentation, keep this in mind so that questions are written on one slide with the answers on the next slide.

Please keep in mind that this is a public website so no patient identifiers should be included on the slides. In addition, written consent from patients should be documented to inform them that the case will be posted online. A consent form is appended to this however feel free to use the consent form from your institution or from a journal (if you are planning to submit it as a case report for publication). If you do not have the families consent, please submit the presentation without the case which allows other fellows to know what has been presented in the past.

For cases or pro-con debates that have controversial information (ie. a previous pro-con debate about trach-ing SMA patients), your hospital or university logo can be removed. If you're not sure about whether the content is appropriate or not for public consumption, ask your program director. A consent form is attached to this document if your institution doesn't have one for you to use. In addition, if you are thinking of publishing a case report about your patient the accepting journal likely has a consent form that you can use.

Please email your presentation to daisy.yin@cw.bc.ca within a month of your presentation for it to be posted on the CTS website. Daisy will release your CCR evaluations to you and your program director when she receives your presentation.
