

UNMODERATED POSTER SESSION

Submissions accepted in this group will be posted according to the following schedule:

Thursday, April 11

1730 – 1930 Opening Reception – Authors available
between 1830-1930

Friday, April 12

0730 – 0830 Delegate Breakfast
1000 – 1030 Networking Break – Authors available

All About Asthma	
Routine Use of Post-bronchodilator Testing in Pulmonary Function Testing Labs	Joel Agarwal
Childhood Asthma in Primary Care: Canada 2016	Andrew Cave
Efficacy of Mepolizumab in Patients with Severe Eosinophilic Asthma by Airway Reversibility: Meta-analysis from Two Phase 3 Trials	Emilie Colton
How Much is Too Much (SABA), Using Social Media to Assess this in Canada	Alan Kaplan
Tiotropium Has Similar Efficacy to Long-acting β_2 -Agonists and Greater Efficacy than Leukotriene Receptor Antagonists as Add-on to ICS in Adults with Asthma: A Systematic Review	Alan Kaplan
Dupilumab Reduces Severe Exacerbation Rate and Improves Lung Function in Adolescent Patients with Uncontrolled, Moderate-to-Severe Asthma: From the LIBERTY ASTHMA QUEST Study	Jorge Maspero
External Validation of Diagnostic Models for Occupational Asthma: A Lesson in Generalization of a Prediction Model	Mahsa Taghiakbari
An Epidemiological Exploration of Acute Asthma Presentations to Emergency Departments and Physician Imaging Practices in Alberta	Cristina Villa-Roel
Exploring Emergency Physicians' Self-reported Management of Acute Asthma in the Emergency Department	Cristina Villa-Roel
Dupilumab Shows Rapid and Sustained Suppression of Inflammatory Biomarkers in Asthma Patients in LIBERTY ASTHMA QUEST	Sally Wenzel
Comparison Between Asthmatic Patients with Sputum Eosinophilic and Non-eosinophilic Phenotypes According to Asthma Severity	Isabelle Xu

COPD Research and Rehabilitation	
Mechanisms of Emphysema in Mice Deficient in Leukotriene C4 Synthase	Yumiko Ishii
Integrated Care for Advanced REspiratory Disorders (ICARE): A Novel Palliative Rehabilitation Program for Advanced Lung Failure	Zachary Kok
Perceived Difficulty and Confidence of Participation in Movement-related Activities for Individuals Living with COPD	Emilie Michalovic
Beyond Function: Exploring Participation in Life Roles in People with COPD	Sachi O'Hoski
Constant-rate Shuttle Walking and Stair Stepping Tests to Assess Exertional Breathlessness in COPD: Responsiveness to Pulmonary Rehabilitation and Estimation of the Minimal Important Difference	Lauren Tracey
ILD, Bronchiectasis, Cancers, and Infection	
A Case of Organizing Pneumonia Secondary to Use of an Electronic Nicotine Delivery System	Brett Baumann
A Cross-Sectional Evaluation of the Impact of a Clinical Care and Research Coordinator on IPF Patient Satisfaction and Quality of Life	Nathan Hambly
A Systematic Review of the Diagnostic Accuracy of Artificial Intelligence Based Computer Programs to Analyze Chest X-Rays for Pulmonary Tuberculosis	Miriam Harris
LPA 1 is a Key Receptor In The Formation Of Invadosomes By Lung Fibroblasts In Lung Fibrosis	Megane Lebel
Bronchiectasis Self-Management Program in Primary Care: A Pilot Study	Isabelle LeClerc
Automatic Detection and Diagnosis of Pulmonary Nodule Using Deep Convolutional Neural Network	Cai Long
Pectoralis Muscle Area and its Association with Pulmonary Function and Resting Oxygen Saturation in Patients with Fibrotic Interstitial Lung Disease	Yannick Molgat-Seon
Surgery for Mycobacteriosis. Should We Be Afraid?	Elena Piatenko
Combined Pulmonary and Rheumatology Clinics Improve the Care Of Patients with Interstitial Lung Diseases	Ketaki Rawal
Lung Cancer In Never Smokers: A Distinct Population	Zach Sagorin
A Multidimensional Dyspnea Scale to Characterize Episodic Breathlessness in Interstitial Lung Disease	Laura van den Bosch

Paediatric Pulmonology and KT	
Long-Term Benefits in Sleep, Breathing, Growth and Adherence in Children on Non-Invasive Ventilation	Maria Castro Codesal
Household Humidity and Bronchial Hyper-Responsiveness in Children in Estrie: Validation of a Questionnaire on Dampness and Mold - Preliminary Results	Sophie Gueniche
Validation and Analysis of an Electronic Cystic Fibrosis Quality Of Life Evaluative Self-Administered Test (E-CFQUEST)	Tyler Hynes
Pulmonary Manifestations of Inflammatory Bowel Disease: A Case Report	Jody Platt
Cryptogenic Organizing Pneumonia, A Rare Cause Of Pulmonary Nodules In Children: A Case Report	Jody Platt
How Long do Caregivers of Children with Tracheostomies Retain Life-Saving Skills After Formal Education and Training with Simulation?	Jody Platt
Chronic Thromboembolic Pulmonary Hypertension (CTEPH): A Rare Cause of Pediatric Pulmonary Hypertension	Rafiaa Valji
Sleep Disordered Breathing	
The Use of the STOP-BANG Questionnaire to Screen Two Different Demographics of Patients from Kuwait and Canada Referred to Sleep Clinics for Suspected Obstructive Sleep Apnea	Ali AlMusawi
Correlation Between the Apnea Hypopnea Index and Change in Airflow Induced by Upper Airway Negative Pressure During Wakefulness	Hisham Alshaer
The Berlin Questionnaire has Limited Utility in Cardiac Patients	Colin Ellis
Transition to Adult Health Care Services for Adolescents Receiving Home Mechanical Ventilation in the Province of Alberta	Erika MacIntyre
Safe Perioperative And Operative Trajectory Of Children With Down Syndrome Undergoing Adenotonsillectomy	Lena Xiao
KT and Community Health	
Intrapleural Therapy: Roles of Nurses	Julie Dallaire
Uptake and Integration of "INSPIRED" COPD Services in Alberta Health Services (AHS) Edmonton Zone (EZ)	Ron Damant
A Web-based Educational Series on COPD for Health-care Providers in Ontario	Jennifer MacKinnon
The Social Determinants of Health. A Deeper Dive: Health Disparities in the Nation's Capital	Smita Pakhale
Sharing Lessons from a High-Performing Integrated Lung Health Team	Shannon Sibbald
