

RESPIROLOGIST OPPORTUNITY

PERMANENT POSITION

PENTICTON, BRITISH COLUMBIA

We are actively seeking at least one *FRCPC Respiriologist* to join our dynamic and collegial team, located in a gorgeous setting on Lake Okanagan with beauty and recreation at one's doorstep.

Penticton Regional Hospital is a regional referral center hosting a population of about 90,000. There are currently three Respiriologists in Penticton, covering both an outpatient and inpatient practice. We have a nearby tertiary care hospital with regional support from Thoracic Surgery.

We are affiliated with the University of British Columbia, which allows opportunity to participate in teaching both residents and medical students.

We have room to grow our services and we are looking for an enthusiastic general Respiriologist(s) to join our group. We welcome locum or training opportunities for interested candidates.
