Preliminary Program

Join us in Toronto

The Canadian Thoracic Society (CTS) is pleased to invite you to attend the 16th Canadian Respiratory Conference (CRC) at the Westin Harbour Castle in Toronto, Ontario, from April 11-13, 2024.

This national interdisciplinary meeting has become an annual must-attend educational and scientific event for members of the Canadian Thoracic Society (CTS) and Canadian Respiratory Health Professionals (CRHP) and others working in respiratory health.

The conference is of special interest to those in our clinical and scientific community, including adult and pediatric respirologists, residents, fellows and trainees, family and emergency physicians, respiratory therapists, pulmonary technologists, physical therapists, nurses, dietitians, pharmacists, educators and other professionals working in the respiratory field.

We look forward to seeing you in Toronto!

Conference Highlights

The conference will begin on Thursday, April 11, and continue through to mid-day on Saturday, April 13. Building on the success of past conferences, our scientific program is interdisciplinary and designed to appeal to clinicians, scientists and educators in the respiratory field. It promotes discussion of the most significant developments in clinical practice, research and education and enhances interprofessional interactions.

At the end of the conference, attendees will be better able to:

- Apply updated, evidence-based scientific information to promote lung health in patients with respiratory disease, critical care and sleep disorders;
- Collaborate with other respiratory stakeholders, through communication, information sharing, networking and partnership building; and
- Translate and integrate recent clinical research on the prevention, management and treatment of respiratory diseases.

The scientific program will present cutting-edge concepts and current research from a variety of perspectives. A wide range of topics will be addressed as they relate to adult and pediatric respiratory health, asthma, COPD, pulmonary rehabilitation, ILD, sleep, COVID-19, critical care, chronic cough, pulmonary function testing, lung cancer and much more!

For more information, visit our conference website at cts-sct.ca/crc

Conference Location

The Canadian Respiratory Conference will be held at the Westin Harbour Castle in Toronto, Ontario. Known as Canada's largest city, Toronto stands as a global hub for business, finance, technology, entertainment, and culture. It is one of the world's most multicultural cities, famous for a diverse choice of food, arts, and festivals! Immerse yourself in this vibrant city while attending our conference – a truly unforgettable experience awaits!

Destination Toronto

1-800-499-2514

info@destinationtoronto.com

www.destinationtoronto.com

CTS acknowledges that the land CRC 2024 will be held on is the traditional territory of many nations including the Mississaugas of the Credit, the Anishnabeg, the Chippewa, the Haudenosaunee and the Wendat peoples and is now home to many diverse First Nations, Inuit and Métis. We also acknowledge that Toronto is covered by Treaty 13 with the Mississaugas of the Credit.

Health and Safety

Although we are very excited to be meeting in person, please note that the CTS plans to meet and/or exceed all local public health protocols that will be in place at the time of the CRC 2024. All aspects of the conference will be conducted following public health guidelines established by the Toronto Public Health, and the Public Health Agency of Canada (PHAC).

Keynote Speakers

Thursday, April 11
1415 – 1500

Wildfire Smoke and Respiratory Health: The Knowns, the Unknowns, and the Canadian Climate Future

Sarah Henderson, PhD, BC Centre for Disease Control and National Collaborating Centre for Environmental Health, Vancouver, BC

Thursday, April 11
1530 – 1615

CIHR-ICRH/CTS Mid-career Lecture in Respiratory Sciences: Training Lungs Against Infectious Diseases

Maziar Divangahi, PhD, Research Institute of the McGill University Health Centre, Montreal, QC

Thursday, April 11
1615 – 1700

Obesity in Chronic Lung Disease: The Great Mimicker - and Concealer!

J. Alberto Neder, MD, PhD, DSc, FRCP(C), FERS, Queen's University, Kingston, ON

Friday, April 12
0830 – 0930

CIHR-ICRH/CTS Distinguished Lecture in Respiratory Sciences: The Changing Face of COPD: From Randomized Clinical Trials (RCTs) to Real World Evidence (RWE)

Jean Bourbeau, MD, MSc, FRCPC, FCAHS, McGill University, Montreal, QC

Saturday, April 13
1115 – 1200

We Are Not All Perfectly Fine: Critical Frameworks for Understanding – and tackling – our Burnout Crisis

Jillian Horton, MD, University of Manitoba, Winnipeg, MB

To access the full scientific program including session descriptions, learning objectives and speaker biographies, as well as the list of poster abstracts and presenters, visit the CRC2024 conference website at cts-sct.ca/crc. New information will be posted as it is received.

Program at a Glance

THURSDAY, APRIL 11, 2024	
1100 – 1215	ACCREDITED CO-DEVELOPED SYMPOSIUM Proactive Management of COPD to Reduce Cardiopulmonary Risk and Outcomes <i>This session is Co-developed by the CTS and AstraZeneca</i>
1230 – 1330	CTS ANNUAL GENERAL MEETING AND LUNCHEON
1400 – 1415	WELCOME AND OPENING REMARKS
1415 – 1500	PLENARY SESSION
	Wildfire Smoke and Respiratory Health: The Knowns, the Unknowns, and the Canadian Climate Future <i>Dr. Sarah Henderson</i>
1500 – 1530	REFRESHMENT BREAK
1530 – 1615	CIHR-ICRH/CTS Mid-career Lecture Award: Training Lungs Against Infectious Diseases <i>Dr. Maziar Divangahi</i>
1615 – 1700	Obesity in Chronic Lung Disease: The Great Mimicker - and Concealer! <i>Dr. J. Alberto Neder</i>
1700 – 1830	WELCOME RECEPTION / SPONSOR DISPLAY / POSTER VIEWING
1830 – 1945	ACCREDITED CO-DEVELOPED SYMPOSIUM Pro/con debate: All Severe Asthmatics Should Have a Trial of Triple Inhaled Therapy Before the Initiation of Biologics <i>This session is Co-developed by the CTS and Valeo Pharma</i>
	ACCREDITED CO-DEVELOPED SYMPOSIUM RSV and the Older Adult Population: Burden, Impact and Prevention <i>This session is Co-developed by the CTS, GSK, Moderna and Pfizer</i>
FRIDAY, APRIL 12, 2024	
0700 – 0815	CTS CLINICAL ASSEMBLY MEETINGS
0730 – 0830	BREAKFAST / SPONSOR DISPLAY / POSTER VIEWING
0830 – 1000	PLENARY SESSION AND AWARD PRESENTATIONS
	CIHR-ICRH/CTS Distinguished Lecture in Respiratory Sciences: The Changing Face of COPD: From Randomized Clinical Trials (RCTs) to Real World Evidence (RWE) <i>Dr. Jean Bourbeau</i>
1000 – 1030	REFRESHMENT BREAK / SPONSOR DISPLAY / POSTER VIEWING
1030 – 1200	CONCURRENT SESSIONS
C 1	COPD: A 2024 Update
1030 – 1100	Alpha-1 Antitrypsin Deficiency Update <i>Dr. Kenneth R. Chapman</i>
1100 - 1130	CTS COPD Guideline One Year Later: Myth and Reality? <i>Dr. Jean Bourbeau</i>
1130 – 1200	COPD and Biologic Therapy - Current Understanding and Future Directions <i>Dr. Sophie Bergeron Kermelly</i>

FRIDAY, APRIL 12, 2024 (CONTINUED)

C 2	Current Topics in Pulmonary Rehabilitation
1030 – 1100	New ATS PR Guidelines <i>Dr. Roger Goldstein</i>
1100 – 1130	Does Cognition Limit Physical Activity in People Living with Chronic Respiratory Disease? <i>Dr. Darlene Reid</i>
1130 – 1200	Rehabilitation for People with Respiratory Disease and Frailty <i>Dr. Dmitry Rozenberg</i>
C 3	Sleep Like a Baby - Practical Approach to the Diagnosis of OSA and the Initiation of PAP Therapy in Children
1030 – 1100	Diagnostic Testing for Obstructive Sleep Apnea in Children: A Joint Initiative of the Canadian Thoracic Society and the Canadian Sleep Society <i>Dr. Joanna MacLean</i>
1100 – 1130	Initiation of NIV on the ward <i>Dr. Haley Fishman</i>
1130 – 1200	Interfaces and Acclimatization <i>Dr. Sundeep Bola and Ms. Adele Baker</i>
C 4	COVID-19 Beyond the Initial Illness: Impact, Function and Imaging
1030 – 1100	The CIHR/CRRN long COVID study <i>Dr. Andrea Gershon</i>
1100 – 1130	Rehabilitation for Long COVID: Does it help? <i>Dr. Tania Janaudis-Ferreira</i>
1130 – 1200	Long-COVID: Clues to Underlying Pathologies of Lung Symptoms Using MRI and CT <i>Dr. Grace Parraga</i>
C 5	When Our Lungs Fail Us: Improving Respiratory Care in the ICU
1030 – 1100	Ventilator-induced Diaphragm Dysfunction <i>Dr. Ewan Goligher</i>
1100 – 1130	Current Perspectives of Early Rehabilitation in the Intensive Care Unit <i>Dr. Anastasia Newman</i>
1130 – 1200	Extracorporeal Support for Acute Respiratory Failure <i>Dr. Eddy Fan</i>
1200 – 1330	LUNCH / SPONSOR DISPLAY / POSTER VIEWING
1200 – 1315	ACCREDITED CO-DEVELOPED SYMPOSIUM Lessons from the Airways: Remodeling Our Understanding with Biologics <i>This session is Co-developed by the CTS and GSK</i>
1230 – 1330	CRHP RESEARCH POSTER ADJUDICATION
1330 – 1500	CONCURRENT SESSIONS
C 6	Beyond the Guidelines: Overview of Hypersensitivity Pneumonitis, Systemic Sclerosis Associated Interstitial Lung Disease and Progressive Pulmonary Fibrosis
1330 – 1400	Hypersensitivity Pneumonitis <i>Dr. Julie Morisset</i>
1400 – 1430	Systemic Sclerosis Associated Interstitial Lung Disease <i>Dr. Martin Kolb</i>
1430 – 1500	Progressive Pulmonary Fibrosis <i>Dr. Daniel Marinescu</i>
C 7	Managing Chronic Cough: What's New?
1330 – 1400	Chronic Cough: What's New in Pharmacological Treatment? <i>Dr. Imran Satia</i>
1400 – 1430	What is Best Care for Chronic Cough: a Patient's Perspective? <i>Ms. Sara McRae</i>
1430 – 1500	How Can a Speech Language Pathologist Help with Chronic Cough? <i>Ms. Kim Smith</i>

FRIDAY, APRIL 12, 2024 (CONTINUED)

C 8	Fresh from the Fellow's Clinic - Escape into Some Great Cases!	
1330 – 1352	Successful use of MEK inhibitor in Noonan syndrome with lymphangiectasia <i>Dr. Loraine Fabri</i>	
1352 – 1415	An Unusual Pneumonia in a Previously Healthy Adolescent <i>Dr. Crista-Lee Berry</i>	
1415 – 1437	An Elusive Case of Tuberculosis <i>Dr. Lydia Mapala</i>	
1437 – 1500	A Serendipitous Encounter <i>Dr. Adeline Lim</i>	
C 9	International Perspectives: Artificial Intelligence: Friend or Foe	
1330 – 1400	Applying AI in Medicine, and Wondering What We Cannot Anticipate...Good and Bad <i>Dr. John (Jack) D. Buckley</i>	
1400 – 1430	Artificial Intelligence – A Pediatric Perspective <i>Prof. Dr. Monika Gappa</i>	
1430 – 1500	Incorporating Artificial Intelligence in Lung Cancer Risk Assessment <i>Dr. M. Patricia Rivera</i>	
C 10	Management of Sleep Disordered Breathing (SDB) in Special Populations	
1330 – 1400	Opioids and Sleep Disordered Breathing - Should We Be Concerned? <i>Dr. Clodagh Ryan</i>	
1400 – 1430	Overlaps Between Obstructive Sleep Apnea and Other Respiratory Diseases, Including COPD, Asthma and Interstitial Lung Disease: Early Detection and Management <i>Dr. Marta Kaminska</i>	
1430 – 1500	Should We Use PAP Therapy for Sleep Disordered Breathing in Heart Failure? <i>Dr. Richard Leung</i>	
1500 – 1530	REFRESHMENT BREAK / SPONSOR DISPLAY / POSTER VIEWING	
1530 – 1630	Annual CTS Mastermind Challenge: A Team-Based Competition among Respiriology Fellows <i>Dr. Chris Hergott, Dr. Cory Yamashita</i>	
1630 – 1800	MODERATED POSTER SESSION	
1800 – 1900	MIX AND MINGLE RECEPTION / SPONSOR DISPLAY	

SATURDAY, APRIL 13, 2024

0700 – 0815	ACCREDITED CO-DEVELOPED SYMPOSIUM Aging in CF: New Considerations Across the Expanding Lifespan of Patients with CF <i>This session is Co-developed by the CTS and Vertex</i>	
	ACCREDITED CO-DEVELOPED SYMPOSIUM Management of Severe Asthma in Canada - Insights from the CASCADE Program <i>This session is Co-developed by the CTS, AstraZeneca and Amgen</i>	
0730 – 0830	CONTINENTAL BREAKFAST	
0830 – 0930	CONCURRENT SESSIONS	
C 11	Hot Topics in Asthma in 2024	
0830 – 0900	Management of T2 low Asthma <i>Dr. Parameswaran Nair</i>	
0900 – 0930	Achieving Asthma Remission <i>Dr. Krystelle Godbout</i>	
C 12	Health Literacy: A Challenge and Opportunity in an Era of Misinformation	
0830 – 0930	Health Literacy: A Challenge and Opportunity in an Era of Misinformation <i>Dr. Judy King</i>	

SATURDAY, APRIL 13, 2024 (CONTINUED)

C 13	Short of Breath, Long on Symptoms - an Interdisciplinary Look at Pediatric Dyspnea Focused on Physiology, Inducible Laryngeal Obstruction and Other Causes Beyond Asthma
0830 – 0900	So How Do You Really Feel? Dyspnea in Children <i>Dr. Larry Lands</i>
0900 – 0930	ILO/EILO and other upper airway causes of dyspnea in pediatric patients <i>Dr. André Isaac</i>
C 14	The Tip of the Lung Cancer Treatment Spear – A Respiriologist's Guide to Targeted Therapy Pneumonitis and Curative Intent Radiotherapy
0830 – 0900	Pneumonitis in the Setting of New Cancer Drugs <i>Dr. Benjamin Shieh</i>
0900 – 0930	Curative Intent Radiotherapy for Early-Stage Lung Cancer Patients <i>Dr. Elizabeth Kurien</i>
0930 – 1000	REFRESHMENT BREAK
1000 – 1100	CONCURRENT SESSIONS
C 15	Research Highlights from Young Investigators
1000 – 1030	Influence of Respiratory Mechanical (un)loading on Inspiratory Neural Drive and Breathlessness During Exercise <i>Mr. Felix Girard</i>
1030 – 1100	Hidden Amongst Healthy: Normalization of Respiratory Pathology and Health Disparities by Reference Equations <i>Mr. Cole Bowerman</i>
C 16	The Intersection of Physiology and Pulmonary Function Testing in 2024
1000 – 1030	The Physiology of Preserved Ratio Impaired Spirometry (PRISm): Implications for Exertional Dyspnea and Exercise Intolerance <i>Dr. Devin Phillips</i>
1030 – 1100	Clinical Implementation of NEW ERS/ ATS Interpretive Strategies <i>Dr. Darcy Marciniuk</i>
C 17	Zebras and Unicorns - What's New in Pediatric Rare Lung Diseases, with a Focus on ChILD and PCD
1000 – 1030	ChILD and Rare Lung disease <i>Dr. Sharon Dell</i>
1030 – 1100	PCD and Non-CF Bronchiectasis <i>Dr. Adam Shapiro</i>
1100 – 1115	BREAK
1115 – 1200	CLOSING PLENARY SESSION
	We Are Not All Perfectly Fine: Critical Frameworks for Understanding – and tackling – our Burnout Crisis <i>Dr. Jillian Horton</i>
1200 – 1215	POSTER AWARD PRESENTATIONS AND CLOSING REMARKS
1230 – 1345	ACCREDITED CO-DEVELOPED SYMPOSIUM Advancing Early Diagnosis and Management of Interstitial Lung Disease (ILD) and Idiopathic Pulmonary Fibrosis (IPF): A Path to Better Patient Outcomes <i>This session is Co-developed by the CTS and Boehringer Ingelheim</i>
	ACCREDITED CO-DEVELOPED SYMPOSIUM The Future of COPD Treatments: Will We Ever Have a Gold Standard? <i>This session is Co-developed by the CTS and Sanofi</i>

This program is preliminary and subject to change. The language of presentation for the scientific program is English. Simultaneous interpretation will be provided for all plenary and select concurrent sessions. This will be confirmed in the final program based on concurrent session registration.

Co-Developed Symposia

CTS partners with leading conference sponsors to co-develop symposia at CRC. These sessions are accredited and planned to achieve scientific integrity, objectivity and balance. Full session details, including invited speakers, session descriptions and learning objectives will be posted as confirmed on the CRC 2024 conference website at cts-sct.ca/crc.

Registration

Take advantage of the savings and register before the early bird deadline of **March 4, 2024**.

[CLICK HERE](#) to register online or visit the CRC 2024 conference website at cts-sct.ca/crc.

REGISTRATION CATEGORY	EARLY BIRD: Before/On March 4, 2024	REGULAR: From March 5 to March 25, 2024	On/After March 26, 2024
Member – Resident/Fellow/Student	\$250	\$300	\$350
Member – CRHP	\$410	\$515	\$595
Member – MD/PhD	\$515	\$620	\$665
Respiratory Roundtable Members	\$450	\$550	\$600
Non-Member Resident/Fellow/Student	\$350	\$450	\$550
Non-Member (MD/PhD/Health Professional) or Industry Representative	\$695	\$795	\$825

Registration fees are listed in Canadian Dollars and are subject to 13% HST.
The CRC accepts payment by credit card (Mastercard or Visa).

For all registration and conference details as well as cancellation and refund policies, visit the conference website at cts-sct.ca/crc.

For inquiries, contact the CTS by email at crc@cts-sct.ca or by phone at 613-235-6650, ext. 703.

Hotel Accommodation

The 2024 Canadian Respiratory Conference (CRC) will be held at the Westin Harbour Castle Hotel in Toronto.

Staying at the official conference hotel facilitates networking and offers easy access to the conference program and special events. **Most importantly, choosing to stay at the host hotel supports the CTS.**

The CTS has negotiated special guest room rates at the Westin Harbour Castle. Rates start as low as \$255 plus applicable taxes (single or double occupancy).

Our group rates will only be available until **March 12, 2024, or until our group block is sold out**, whichever comes first. After that point, reservations will be accepted based on availability and subject to prevailing rates.

With the increased demand for travel and the popular destination of Toronto, we expect our guest room block to fill before our cut-off date. We encourage you to book early!

To reserve a room online

CLICK HERE

To reserve by phone, call the reservations department at **1-888-627-8559** and state you are part of the **Canadian Thoracic Society/ Canadian Respiratory Conference** or simply by quoting the group code '**REP**'.

For additional information, visit our conference website at cts-sct.ca/crc.

Travel Arrangements

Global Travel Centre is the official travel agency for the CRC. If you require assistance in making your travel plans, contact one of our dedicated representatives, Monday to Friday from 09:00 to 17:00 (Eastern Time).

Global Travel Centre

613-238-0000 or 1-800-267-1264

corp@globaltravel.ca

For discount booking codes for Canada's Air Canada and WestJet, as well as Via Rail, visit our conference website at cts-sct.ca/crc.

Booking with Global Travel Centre is a way to give back – Global will make a \$5 donation to Tree Canada for every delegate that books travel with them.

Special Events and Affiliated Meetings

Connecting with peers is easy at CRC 2024 - CTS will host affiliated meetings and events, including meetings of the CTS Assemblies and standing committees. For the interest of those attending, the preliminary schedule can be viewed on our conference website at cts-sct.ca/crc.

National Senior Respiratory Fellows Symposium (NSRFS)

Wednesday, April 10

This annual symposium is a collaborative initiative of Canadian respirology program directors and the CTS to prepare residents from across Canada for the Royal College exam. The OSCE Prep Exam will take place in conjunction with the CRC.

Canadian Pediatric Respirology Fellows Day

Wednesday, April 10

The annual Canadian Pediatric Respirology Fellows Day will be held at the CRC as a joint initiative of the CTS Pediatric Assembly and pediatric respirology program directors.

CLA RENASCENT / CIHR-ICRH Trainee Workshop

Wednesday, April 10 – Thursday, April 11

This annual workshop for young investigators will be held prior to the CRC. It is organized by the Canadian Lung Association and the CIHR-ICRH in collaboration with the CTS and the Canadian Respiratory Research Network.

CTS Annual General Meeting and Luncheon

Thursday, April 11

All CTS members are invited to take part in the CTS Annual General Meeting and Luncheon from 1230 to 1330. The CTS President and Treasurer will present their annual reports and members will elect the CTS Board of Directors for 2024-2025.

CRHP Assembly Reception

Thursday, April 11

CRHP members of CTS are encouraged to attend a networking reception held at 1900 immediately after the CRC Opening Reception.

CTS Pediatric Assembly Annual Meeting

Thursday, April 11

All members of the CTS Pediatric Assembly are encouraged to attend the Annual Meeting held at 1900 immediately following the CRC Welcome Reception.

CTS Clinical Assembly and Working Group Meetings

Wednesday, April 10 - Friday, April 12

CTS Clinical Assemblies on Asthma, COPD, ILD, Sleep and HMV, Chest Procedures as well as Working Groups on Chronic Cough, Cystic Fibrosis and Non-CF Bronchiectasis will meet on various days in conjunction with the conference. All CTS members are invited to attend the meetings.

Canadian Respiratory Guidelines Committee Methodology and Guideline Development Workshop

Saturday, April 13

CTS will host a methodology and guideline development workshop from 1330 to 1600 on Saturday, April 13. The focus of the first part of the workshop will be on patient engagement; defining patient preferences; understanding why it is important to engage patients in guideline lifecycle; considering insight on how to identify, incorporate and report patient preferences in guidelines. The focus of the second part will be on working with GRADE in the guidelines process, including translating GRADE evidence tables to recommendations, determining the correct quality/ strength, and what consensus techniques can be used in panel processes.

Pre-registration is required. For more information, please visit the CTS website at cts-sct.ca/crc.

All conference information and program updates will be posted on the CRC 2024 website at cts-sct.ca/crc as they become available.
