

We're Hiring

PEDIATRIC RESPIROLOGIST (SLEEP)

Join our division of respiratory medicine in the Department of Pediatrics. The full scope of the position is open to negotiation and, to some extent, will depend on the participant's past training and areas of expertise. Importance will be placed on candidates with a proven research and teaching track record plus the strong inter-personal skills needed to work as part of a busy team. However, at least one-half will be devoted to the care of children requiring the services of our sleep and home trach/ventilation programs. There is opportunity for a mid-career to senior applicant to be appointed to the leadership position of medical director of the sleep program.

Qualifications

- MD (or equivalent) and Royal College of Physicians and Surgeons of Canada or equivalent certification in pediatric respiratory medicine
- Eligible for a specialist license
- Additional certification and/or fellowship training in sleep medicine is an asset.

What We Bring

- Professional development opportunities through our in-house training programs
- Comprehensive benefits package
- Municipal pension plan
- Annual statutory holidays (13) with generous vacation entitlement and accrual
- Access to WorkPerks, a premium discount program offering a wide range of local and national discounts on electronics, entertainment, dining, travel, wellness, apparel, and more.
